Fuel. Sulphur and Currency Surcharge 2023

Fuel Surcharge

30 October 2023
Side 1/5

PostNord is applying the conditions for fuel surcharge for Varubrev, parcel, pallets, groupage (Nordic), part load (Sweden), courier and PostNord InNight. which may be found in the General Terms and Conditions (PAKN) in PostNord's customer agreement.

The fuel surcharge is calculated as a percentage of the freight cost, excluding any supplemental services, for both domestic and international parcels, Varubrev, pallets, groupage (Nordic), part load (Sweden) and PostNord InNight. For PEX Courier, the surcharge applies to ground transport. The surcharge appears as a separate item on the invoice.

The percentage rate is established each month based on the transport cost index (TKI) provided by the Swedish Association of Road Haulage Companies (Sveriges Åkeriföretag). From 1 April 2022 the fuel surcharge will also be based on another index within the transport cost index (TKI) that refers to HVO.

Sulphur Surcharge

The new Sulphur Directive*, which came into force on 1 January 2015, regulates the highest permitted sulphur content in maritime fuel. The directive means that from the start of the year the sulphur content in maritime fuel used by shipping companies must be dramatically reduced from the current level of 1.0% to 0.9%.

This is why PostNord has started adding an extra surcharge applicable to certain countries for the PostNord InNight service effective from 1 January 2015. PostNord starts adding an extra surcharge to additional services and countries with effect from 1 February 2015.

The sulphur surcharge is calculated as a percentage of the freight costs, excluding any additional services. The relevant services and countries are shown in the table (PDF). The surcharge is shown separately on the invoice.

p*The European Parliament and Council directive (directive 1999/32/EC. later amended by directive 2012/33/EC)

Currency surcharge

As of May 2nd. 2019. PostNord will apply the currency surcharge for parcels, pallets, groupage and PostNord InNight, according to the general terms and conditions (PAKN) of PostNord's agreement.

The currency surcharge is calculated as a percentage on the freight cost for parcels, pallets, groupage and PostNord InNight, value added services are excluded. The surcharge is stated separately on the invoice.

The surcharge percentage is determined each month based on calculations based on the Swedish krona (SEK) development relative to other currencies. Current exchange rates are provided by Sveriges Riksbank.

Current value for November

Information regarding the current level of surcharges is updated at the end of each month in this document, also see postnord.se/priser.

* Applicable to all other parcel services ** Applicable to all pallets services

| Country | Service | Fuel Surcharge | Sulphur Surcharge | Currency Surcharge |
